

## Mr SUN Da-ming

Deputy Chief Engineer, China Academy of Building Research

### **Biography**

Mr SUN Da-ming is the Deputy Chief Engineer at the China Academy of Building Research. He also serves as the Executive Vice Director of the Expert Committee of the Research Institute for Better Housing under the Shanghai Real Estate Industry Association, as well as the Executive Vice Director of the Expert Committee for Smart Building Evaluation of the China Real Estate Association.

His work focuses on research and practical applications in future housing, smart housing, green buildings, low-carbon cities, and intelligent construction. His professional scope covers software development, engineering consultancy and project implementation, the management and delivery of research projects, energy-efficient building materials testing, and the evaluation of the operational performance of green buildings.

Mr SUN has received multiple awards, including Second and Third Prizes of the Huaxia Awards from the Ministry of Housing and Urban-Rural Development, Second and Third Prizes for Scientific and Technological Progress in Shanghai, and a First Prize for Architectural Science and Technology Progress in Shaanxi Province.
