

HKGBC Webinar Series

Building Buildings by Blocks of Blocks

(Photo Copyright by Arup)

26 May 2020 (Tuesday)

5:00 pm - 6:00 pm

The Webinar will be conducted via Zoom

Speaker

Ir Dr Goman HO

Arup Fellow

Director of Innovation, Arup

The 2018 Policy Address and Construction 2.0 promote the wide use of modular integrated construction (MiC) for enhanced quality, affordability, productivity, safety and competitiveness of building and construction. Its benefits can be vividly demonstrated in transit houses, and currently in temporary hospitalisation units established in different parts of the world to cope with the surging healthcare demands during the recent COVID-19 pandemic.

The webinar will discuss the current technology, key considerations throughout the design process and implementation of MiC, as well as the challenges in multidisciplinary design, prefabrication, transportation, installation and inspection for compliance. To demonstrate capability of modular construction method as well as its feasibility for large scale applications in Hong Kong, project examples such as the MiC Display Centre and the use of MiC methods for quarantine wards and ICU wards will be further elaborated as possible solutions to address some current engineering problems faced by the local industry.

Programme

5:00 pm – 5:50 pm **Building Buildings by Blocks of Blocks**

5:50 pm – 6:00 pm Q&A Session

Registration

Deadline: 25 May 2020 (Monday) or Full Capacity

Website: <https://www.hkgbc.org.hk/eng/news-events/events-trainings/events-detail?eventId=262>

Fee Free of Charge

CPD Hour 1 CPD hour will be auto uploaded to attendees' BEAM Pro/BEAM Affiliate Individual Accounts.

Language English

Remark This CPD event will be conducted in the form of webinar via Zoom
