

HKGBC Webinar Series Enhanced Public Hygiene and Security with Contactless Solutions

1 June 2020 (Monday)

5:00 pm - 6:00 pm

The Webinar will be conducted via Zoom

The smart building industry is poised to fight the COVID-19 virus with advanced solutions, as hygiene concerns fuel demand for touch-less technology. With the use of AI technologies and IoT sensors, part of the physical interactions can be shifted to personalised devices and mobile applications instead of using public devices. Also, biometric solutions play a major role in minimising contact with public surfaces yet achieving efficient access control and premises security. In the midst of this pandemic, it's difficult to fully predict how COVID-19 may alter long-term living patterns. Going forward, though, these strategies will be an integral part of the planning and design of all smart building projects.

Speaker

Ir Billy CHEUNG

Manager of Automation and ELV,
ATAL Building Services Engineering Ltd

Programme

5:00 pm – 5:50 pm **Enhanced Public Hygiene and Security with Contactless Solutions**

5:50 pm – 6:00 pm Q&A Session

Registration

Deadline: 29 May 2020 (Friday) or Full Capacity

Website: <https://www.hkgbc.org.hk/eng/news-events/events-trainings/events-detail?eventId=267>

Fee Free of Charge

CPD Hour 1 CPD hour will be auto uploaded to attendees' BEAM Pro/BEAM Affiliate Individual Accounts.

Language Cantonese (supplemented with English presentation materials)

Remark This CPD event will be conducted in the form of webinar via Zoom

Enquiries Mr Elliott TAM (39948890)
