Delivery
Hybrid
(Pre-registration required)

Quota
Virtual: 1000 persons
Physical: 60 persons

Synopsis

This webinar aims to provide a comprehensive overview of the major eco-label programs in the region, offering valuable insights into their certification criteria and requirements. The esteemed speakers will share their expertise on navigating the eco-labeling landscape in Hong Kong. Ar. Clarence LEUNG, Chairperson of the Committee on Environment and Sustainability of CIC, will deliver a welcome note introducing CIC sustainable initiatives for construction industry. Ar. Dr. Tony IP, HKGBC Director and Convenor of the Green Product Task Force Group, will introduce the Construction Industry Council Green Production Certification (CICGPC) and eco-product directory, while discussing the related incentives available through the BEAM Plus certifications. Ir Tim WONG, Portfolio Manager & Associate from Arup, will provide a detailed analysis of eco-label schemes for the building industry in the Greater Bay Area, including an introduction to major programs and a comparative study of their certification criteria and requirements.
