✓ **6pm – 8pm (5:45pm registration)**

📍 **BEC Auditorium**

77 Tat Chee Avenue, Kowloon Tong, Hong Kong

Join Arup and Saint-Gobain for an exclusive evening on how the built environment can respond to climate change and digital transformation.

The event marks the Asia launch (Hong Kong) of Arup and Saint-Gobain's joint report [Adapting Buildings to Climate Change](#), which explores how buildings can adapt, strengthen resilience, and create long-term value.

Industry leaders and practitioners will share practical approaches to climate resilience, building transformation and retrofitting, alongside emerging applications of AI in building design and operation.
